

PENETRATION TESTING

Penetration Testing as a Service Solutions

Uncover common flaws in any asset fast, high-impact testing

Summary

Threat actors love status quo penetration testing because its long ramp-ups, inflexibility, low-quality results, and remediation delays leave your digital assets exposed.

In contrast, they hate Penetration Testing as a Service (PTaaS) solutions on the Bugcrowd Platform™. We make penetration tests easy to launch, run, and scale per your precise assets and requirements, while delivering compliance assurance along with better results for risk reduction. Plus, our SaaS platform's advanced analytics and automated workflows help you find and remediate more critical vulnerabilities for true shift-left application security. Key benefits include:

VERSATILE

Configure pen tests for every need, from basic assurance to maximum risk reduction

TALENTED

Access elite pen tester talent matched to your precise assets and requirements

FAST

Launch tests in 3 days or less and run them point-in-time and/or continuously

TRANSPARENT

View findings and tester progress through their methodology checklist in real time

INTEGRATED

Flow findings directly into your SDLC process for fast & early remediation

Bugcrowd PTaaS Solutions

**Web Application Pen Test**

Test web applications, whether cloud-based or on-premises, of any complexity.

**AI Pen Test**

Uncover common security-related vulnerabilities in AI systems (data bias excluded)

**Network Pen Test**

Rely on expert network pen testers to find hidden flaws that other approaches can't.

**Mobile Application Pen Test**

Count on excellent results from a curated team of mobile app security experts.

**Cloud Pen Test**

Identify vulnerabilities unique to cloud environments, all while respecting the shared responsibility approach.

**API Pen Test**

Test the security of your APIs, with results fully integrated with your SDLC, before they ship.

**IoT Pen Test**

Find cyber-physical vulnerabilities unique to connected devices, from pacemakers to planes.

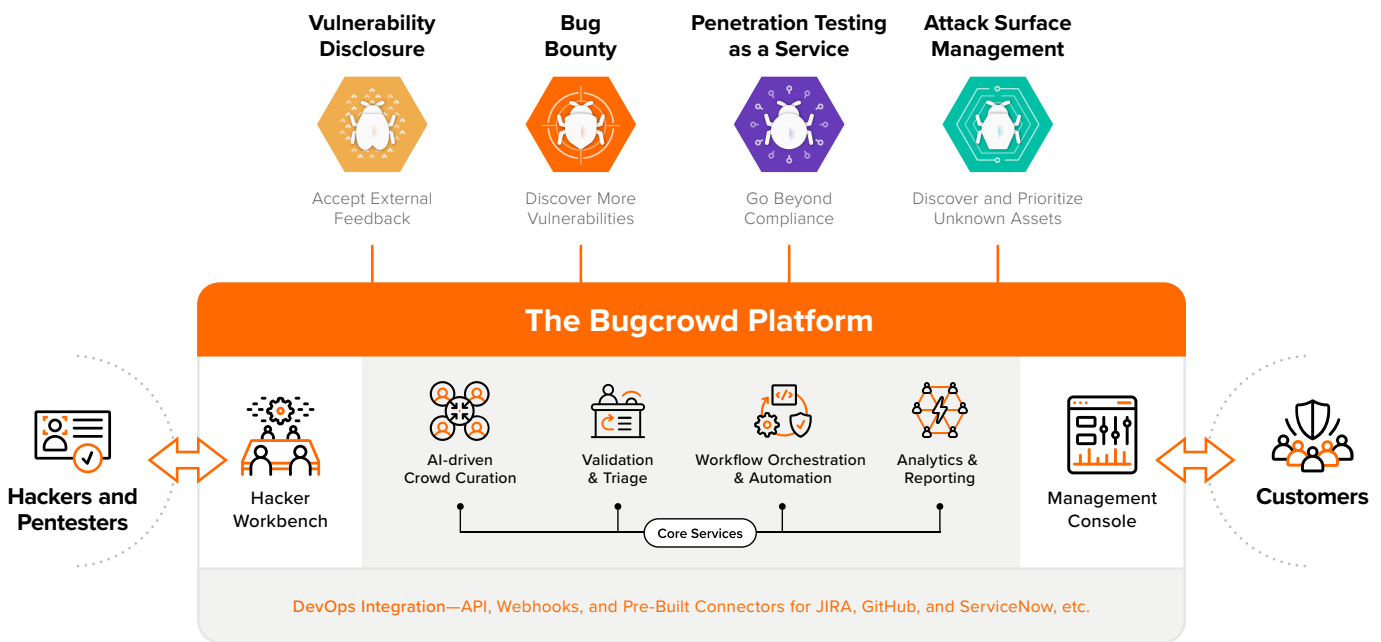

**Social Engineering Pen Test**

Run a specialized test to assess how your organization responds to common human-based threats.

How It Works

The Bugcrowd Security Knowledge Platform™ makes it easy to configure tests and includes a rich dashboard for tracking pen test results and methodology progress. In addition to managed triage, real-time visibility into pen test progress, and 24/7 reporting, Bugcrowd Pen Tests include a detailed auditor report about findings and methodology to help meet the strictest compliance needs.

Right Crowd, Right Time

Need special skills? We match the right trusted hackers to your needs and environment across hundreds of dimensions using AI (CrowdMatch™).

Engineered Triage at Scale

Using an advanced toolbox in our the platform, our global team rapidly validates and triages submissions, with PTs often handled within hours.

Insights From Security Knowledge Graph

We apply knowledge developed over a decade of experience across thousands of customer programs to help you make continuous improvements.

Works With Your Existing Processes

The platform integrates with your existing tools and processes to ensure that applications and APIs are continuously tested before they ship.

Packages and Options

Bugcrowd Pen Testing as a Service (PTaaS) solutions are available in a variety of configurations, and for a variety of assets, for all your compliance and risk reduction needs. Bugcrowd PTaaS tests launch in days—not weeks—and are as scalable and repeatable as you need.

	BASIC	STANDARD	PLUS	MAX
Use Case	Basic assurance	Standard risk reduction	Enhanced risk reduction	Maximum risk reduction
Targets	External Web Apps and Networks	External Web Apps and Networks	Web Apps, Networks, APIs, Mobile Apps, Cloud Services, IoT Devices	Web Apps, Networks, APIs, Mobile Apps, Cloud Services, IoT Devices
Testers	Automated with Human Verification	Human Tested (Std. Pen Tester Bench)	Human Tested (Elite Pen Tester Bench)	Human Tested (Elite Pen Tester Bench)
Duration	Time-boxed	Time-boxed	Time-boxed	Time-boxed or Continuous
Report	Basic	Standard	Enhanced	Enhanced
Methodology	Basic (e.g., PCI 6.6)	Standard (e.g., PCI 6.6 and 11.3)	Standard or Focused	Standard or Focused
Internal Targets	Option	Option	Included	Included
Retesting with one report update	Option	Option	Included	Included
Curated crowd: Custom geolocations, skill sets, etc. (CrowdMatch™)	Not Available	Option	Included	Included
